Flying post pan

It's inevitable. Trade show organizers are revving their engines, ready to roar back.

Maybe you've already dared jump on a plane to wait out the pandemic with family or because you needed a break from executive orders.

How has travel changed since you've been away? Here are some fast facts.

mask up

You will be reminded —ad infinitum

cut backs

Long-term parking, airline clubs and other services are closed or abbreviated

that's a wrap

On-board snacks. Saniwipes. Plastic means safe in this alternative universe.

travel credits

Most airlines now roll ticket changes and cancellations into travel credits.

freedom rings

Operation Warp Speed: The C-19 vaccine is officially launched.

health pass

An ID for those who receive the C-19 vaccine is in the works.

SOURCE: TSA; CDC, JAMA
SOURCE: TSA; CDC, JAMA

Regulated states

Traveler requirements

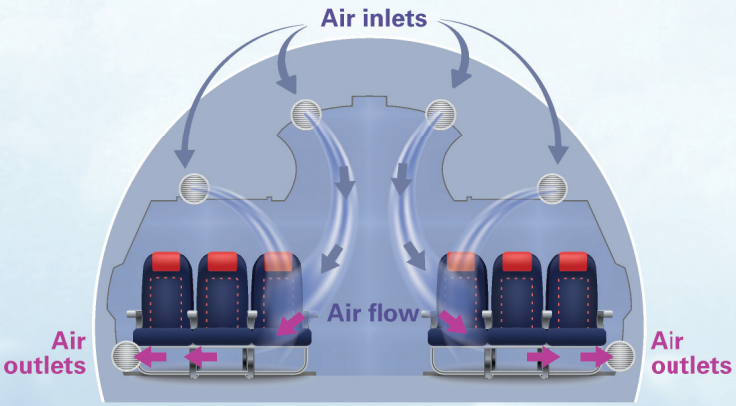
- Traveler declaration/history
- C19 tests
- Quarantine
- Fines, $500 to $25,000, jail

(Note: Chicago's rules are far stricter than the state's)

Breathe easy

HEPA-filtered air flows from the ceiling downward and exits through floor vents located below those same seats. There is little horizontal airflow.

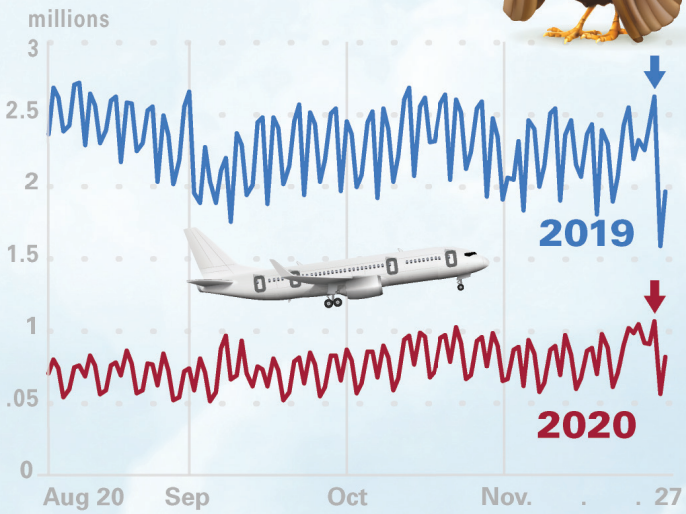
CROSS SECTION OF AIRPLANE CABIN



MODERN AIRPLANES MAINTAIN CLEAN AIR BY CIRCULATING A MIX OF FRESH AIR AND AIR RECYCLED THROUGH HEPA FILTERS USED IN HOSPITAL OPERATING ROOMS. CABIN AIR IS COMPLETELY CIRCULATED EVERY 7 MINUTES.

Free bird

Air travel spiked the day before Thanksgiving despite federal health officials cautions.



THOUGH TRENDING UP SLOWLY, AIR TRAVEL IS STILL 40 PERCENT DOWN YEAR-OVER-YEAR.
