Finding balance, getting back to business

## The U.S. trifecta

**30+**  
**million**  
**unemployed**

Breaking the previous record of 695,000 from 1982. Not counted are part-time, self-employed and gig workers who have also lost their livelihoods.

**234**  
**thousand**

**COVID-19**  
**DEATHS**  
**2019 TO DATE**

Coronavirus death estimations and hospitalizations continue to shrink

**WORLDWIDE**

**50**  
**MILLION DEATHS**  
**FROM SPANISH FLU**  
**DEATHS 1918-1919**

Social distancing has slowed the number of corona cases allowing treatments and infrastructure to get a jump on its spread. Such actions fight the impact of C-19, but at the cost to privacy and civil liberties is at issue.

When will the U.S. get back to work? What changes are temporary triage and which are here to stay?
